

LEAP Agility is proud to present  
a day of learning and growth  
for your peak performance!

Sun., Mar. 17, 2018, 9:00am – 4:00pm

## Mental Management Infused Handling and Discussion

Suitable for teams that can successfully complete all obstacles, are competing, and want to improve their mental performance. Coursework geared for Masters.

Picture your peak performance, smile, and make it happen! Handlers spend a great deal of time training physical skills. Mental management provides a balance to your efforts by helping YOU be aware of your beliefs, emotions and actions .... All of which lead to your results!

The morning features an open, honest discussion of factors that can help you increase your awareness of the impact YOU have on YOU, and to prepare to be your best. The afternoon includes coursework with your dog, as we put concepts into action.

---
